Objectives of this project

- Creation of additional content and offers for the present conventional and casino tourists in the region and prolongation of their stay (as ultimate objectives)
- Arranging the area around the artificial lake Paljurci
- Enrichment of the tourism offer in the region and stimulating the development of rural areas
- Connecting and integrating the offer of rural, cultural-historical, mountain and sport recreation tourism
- Support the implementation of Programme for development of the South-East planning region

Results of the project

- Paljurci is promoted as one of the main tourism attractions in the region
- The area near the artificial lake is completely revitalised, cleaned, arranged and settled with urban equipment
- Better preconditions for longer stay of the tourists in the region are created
- Increased number of visitors in the rural area of the region
- Increased tourism offer in the SEPR
- Partnership between public and private sector, municipalities, NGOs and civil society is improved, especially regarding maintenance and sustainability of the results of this project
- Contribution is given to improve the economic situation and to the increase of the potential for future domestic and foregone investments
