

## “Support the employment of women and young”

**U**nemployment has been and continues to be one of the main problems in the development of the Republic of Macedonia. Employment in the Republic of Macedonia is characterised by a very unfavorable gender structure. This structure remained unchanged for a long period, primarily because of unstable economic conditions in the country's social and discrepant of a available and necessary profiles of the labor market. This project creates the opportunity for financing new business plans that will allow the opening of new businesses and new jobs.

## Short description of the project:

### Competent:

Centre for development of the South-East planning region

### Partners:

- Centre for development of the East planning region
- Centre for development of the South-West planning region

### Duration:

22.12.2009 – 30.06.2010

### Context:

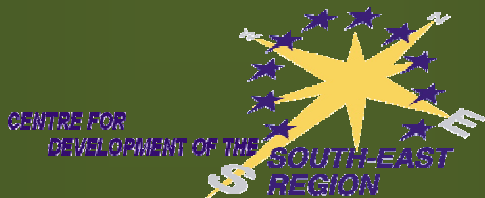

The increase of employment, stimulation of economic development and competitiveness as strategic targets in development programs of the three planning regions.

### Objective of the project:

Self-employment and starting of three new businesses with the registration of business activity and creating new jobs for youth employment and women.
