Improving and restoring the insulation of buildings, maintenance of energy systems in buildings, implementation of measures and technologies for energy efficiency, changing habits and proper rational energy consumption by consumers in buildings, will reduce energy costs and enable environmental protection.

Within the project a technical documentation will be prepared for 10 facilities (schools and kindergartens) in 10 Municipalities in the South-East planning region. The project will enable the facilities that are built 20/30 years ago on the territory of the 10 Municipalities in the region to be reconstructed in terms of energy efficiency, thereby reducing energy losses and emissions of greenhouse gases, and create comfortable spaces for stay and work.

Also in the frame of the project 10 workshops are planned to be organized in each Municipality in order for the employees of the public buildings to be acquainted with the concept of the energy efficiency and to present the results of the project.

Short description of the project:

Lead Partner:

- Centre for Development of the South-East Planning Region

Project Partners:

- 10 Municipalities from the South-East planning region (Bosilovo, Bogdanci, Valandovo, Vasilevo, Gevgelija, Dojran, Konche, Novo Selo, Radovish, Strumica).

Duration:

6 months

Financed by:

German Agency for International Cooperation (GIZ) and EU Delegation in R. Macedonia

Objective of the project:

Efficient use of energy, reducing energy losses and greenhouse gas emissions through the implementation of energy efficiency measures in public buildings.

Objectives of the project:

Preparation of Technical documentation (main designs with included revision and elaborate on energy efficiency for the following public buildings:

- Secondary Municipal School "Bogdanci", Municipality of Bogdanci;
- Primary Municipal School "Cyril and Methodius", v. Ilovica, Municipality of Bosilovo;
- Municipal Public Institution kindergarten "Kalinka", Municipality of Valandovo;
- District Primary Municipal School "Goce Delchev", v. Sedlarci, Municipality of Vasilevo;
- Primary Municipal School "Vlado Kantardziev", Municipality of Gevgelija;
- Primary Municipal School "Kocho Racin", s. Nov Dojran, Municipality of Dojran;
- District Primary Municipal School "Dolni Lipovikj" in v. Dolni Lipovikj, Municipality of Konche;
- Primary Municipal School "Manush Turnovski" v. Novo Selo, Municipality of Novo Selo;
- Primary Municipal School "Orce Nikolov", v. Injevo, Municipality of Radovish;
- Municipal Public Institution kindergarten "Detska Radost", Municipality of Strumica.

Results of the project:

- Prepared 10 main designs with revision;
- Prepared 10 elaborates on energy efficiency;
- An opportunity for reconstruction of 10 schools and 2 kindergartens;
- Certified 10 Energy efficient facilities.
