

„Improving the road network in the area s. Dobroshinci - Regional landfill JIR - dam "Turija" - s. Nivichino“

Lake Turija is the largest artificial lake in the South-East region. Its beauty and nature acts like a motivation for promotion by visits by tourists on sightseeing, recreation, and sport fishing. The lake is surrounded by beautiful forests and the climate, which contribute to further enjoyment for tourists. With the reconstruction of the road this place will be better available, and it will not take any risks to the environment, especially in flora and fauna.

Final aim of this project will have people from Strumica's micro-region, fishermen and hunters from the South-East region and the whole country, and target groups of the project is the migrated population of the village Dobroshinci and village Nivichino, farmers, water supply "Strumica field", regional landfill and public company "ASA", public company "Macedonian Forests".
