

„Establishment of Cross-border Network among Municipal Experts on Projects and Programmes in the Cross-border Region PM – NET”

The project „Establishment of Cross-border Network among Municipal Experts on Projects and Programmes in the Cross-border Region PM – NET” has a clear cross-border character and creates initial contacts between municipal experts and facilitates the flow of information regarding the past, current and future projects of Municipalities.

This will provide a clear assessment of the needs and priorities of each Municipality will create preconditions for exchange of experiences and good practices, as well as joint development and management of future projects.

The project develops software for better management of information and unification of information for the municipal project in order to create a common database of completed, current and future municipal projects. The project increases the potential of the expert participants in the network through training and creates preconditions for identification and preparation of joint projects relating to the entire cross border region.

Short description of the project:

Lead Partner:

- Association of South Western municipalities – Blagoevgrad, Republic of Bulgaria

Partner:

- Centre for Development of the South-East Planning Region
