

# “Mountains speak and connect us”

**W**ithin the project a Study for development of tourist locality Suvi Laki and technical documentation for construction of Adventure Park will be prepared. The construction of this park will allow enrichment of the tourist offer in this part of the region. The enrichment of the tourist offer will create conditions for a more dynamic development of tourism, will develop competitive advantages and encourage the development of services.

The construction of mini adventure park at the tourist site Suvi Laki will include the following contents:

1. Children's playground with the following elements - dampers, slide - trampolines, swings and double swings, seesaws with different heights, wooden houses with platform, trampolines, carousel and other items suitable for children;
2. Children's playground for children with special needs with equipment adapted for these children, with sufficiently wide paths in order to allow their free movement;
3. Adventure park with ropes, hanging bridges, zip ride, high platforms, trampolines for adult, artificial rock climbing etc;
4. Cycling park featuring elements which are made of wood provided to drive and perform various stunts, trails with different obstacles for jumping and curved parts, and other specific elements for driving.
